

118 CENTRIFUGAL
PUMP SERIES

PROVEN PERFORMANCE & DURABILITY

Southwest is proud to offer the 118 Centrifugal Pump series. Engineered for durable performance, these centrifugal pumps are suitable for a variety of pumping applications including:

- Micro Tunneling
- Mud Hopper & Guns
- Water Pumping
- Liner Washing
- Trip Tank
- Mud Cleaner
- General Charging
- Degasser

Key Features Include:

- Heavy-duty, cast iron frame to withstand high pumping loads
- Robust concentric housing which eliminates vibration, turbulence and cavitation.
- Utilizes low friction bearings for maximum precision and durability.
- Ceramic-coated shaft sleeve to protect shaft from abrasive fluids.
- Available with a variety of mechanical seal options including tungsten-tungsten, tungsten-silicone, or silicone carbide.

Options:

- Explosion Proof motors
- Clockwise or Counterclockwise rotation
- Custom Impeller Size
