**NOTE ON IMPELLER CODE:
XX - Impeller Code**

**First "X" equals diameter of impeller in inches minus 4. Therefore 10" = 6, 9"=5, 8"=4 etc... For 14" use letter A
Second "X" equals fractional data in 1/8s. Therefore 1/8"= 1, 1/4"= 2, 1/2"= 4 etc... Thus a 10.50" impeller is coded as 64**
