

STYLE DATA SHEET

STYLE

Style 7066

SCOPE

- HNBR / Fiber Composition

MATERIAL

- Oil resistant premium hydrogenated Nitrile homogenous compound
Aramid cloth, with wear resistant dispersed PTFE composition construction.

APPLICATIONS

- Its typical application includes reciprocating and static seals, gaskets, Well Service Plunger Packings, Pistons and piston cups, Pump packings, packing sets.

MECHANICAL PROPERTIES

- Hardness Shore: A (ASTM D-2240)
- NA Elongation (ASTM D-412)
- NA Tensile (ASTM D-412)
- 100% Modulus (ASTM D-412)
- Abrasion & Tear Strength: Excellent
- Aging & Weather Resistance: Excellent
- Operating Temperature Range: -40°F to 250°F

REVISION 1, 3-16-18
