

PROVEN PERFORMANCE, UNMATCHED DURABILITY, SINCE 1947.

Southwest Type TC wash pipe is an extreme duty wash pipe coated with tungsten carbide to reduce wear. Used with Southwest's type WPHT aramid fiber reinforced packing results in the toughest wash pipe assembly available.

STYLE

- Washpipe with tungsten carbide coating

SCOPE

- Washpipe is coated with tungsten carbide for maximum abrasion resistance.

MATERIAL

- Washpipe is manufactured with carbon steel substrate and spray fused with tungsten carbide.

APPLICATIONS

- Typical applications include top drives and swivels on land and ocean rigs.

PROPERTIES

- Maximum Pressure: 7,500 PSI
- Abrasion & Tear Strength: Excellent
- Surface Hardness: 68-72 HRC
- Operating Temperature Range: -40°F to 300°F
